

Controlled Foreign Automobile Programs

AIG WorldSource offers U.S.-based multinational corporations an easy way to track and control their foreign automobile exposures and premium outlays.

Primary 3rd Party Automobile Liability and Physical Damage Coverage Offerings Include:

- Controlled Master Programs
- Coverage based on local admitted insurance requirements in foreign jurisdictions
- Excess/difference in conditions liability coverage for owned, hired and non-owned foreign automobiles
- Mono-line programs can be underwritten subject to minimum premiums
- Single Tower coverage with local admitted underlyers in foreign jurisdictions
- Full Compliance with Compulsory Financial Responsibility Laws
- Guaranteed Cost, Deductible, Retrospective and Captive Programs available

Specific Coverages and Services Offered:

- Unlimited Liability Coverage in specified territories where compulsory
- Physical Damage Coverage at desired deductible levels
- Local premium collection
- Local claims offices to handle claims where you operate
- Worldwide loss control and claims services and the availability of AIG's IntelliRisk Web-based claims data system
- Ability to include Worldwide GL, and workers' compensation in a global casualty program

What are the advantages of an AIG WorldSource Foreign Automobile Program?

- AIG companies hold high financial strength ratings from the insurance industry's principal rating agencies and hold high credit ratings available from the leading rating services
- Global underwriters focused on meeting the customer's needs
- IntelliRisk management information provides local claims information including supplemental data i.e.; driver information, cause of loss data, division and location coding, US dollar and local country currency data
- Driver training and other loss control services available on a local basis in some jurisdictions
