

UmbrellaPrimeSM

Overview

UmbrellaPrime, commercial umbrella liability insurance from AIG Excess Casualty®, helps to protect insureds facing a catastrophic liability claim. UmbrellaPrime is designed to more closely track ISO's primary general liability form, helping to eliminate gaps and inconsistencies in coverage.

UmbrellaPrime also includes CrisisResponse®, crisis management funds and professional expertise to help immediately address a covered crisis event. CrisisResponse is an advancement of the umbrella limit—up to \$250,000—for crisis response costs covered by the policy. It is also immediate, 24/7 access to claims specialists who can help companies manage a crisis, even before a claim is filed.

Customer Profile

All classes of business.
