

Abuse Prevention Services

At AIG Programs, we specialize in providing risk management services to our insureds. We understand the issues faced by organizations serving children and vulnerable adults and work to help minimize the potential for loss. To help keep clients safe from abuse by an employee, volunteer, or another program participant, we have partnered with Praesidium, Inc., a national leader in abuse risk management. Listed below are several of their loss control solutions, many of which are available at no additional cost to our clients.

Armatus® Learn to Protect Training Part-time and full-time, from managers to direct care employees to volunteers, executives to board members, everyone has a contribution to make and a role to fulfill in the commitment to keep kids safe. This is exactly why Praesidium offers the Armatus Learn to Protect System. At the core of the system are 25- to 45- minute online courses that are designed to ignite the learning process and provide learners with tools they need to put child safety practices to work.

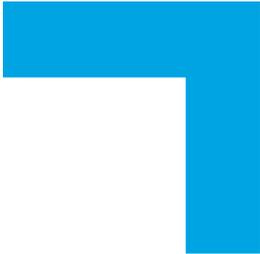

Armatus online courses include actionable learning objectives, research-validated content, engaging graphics, frequent interactivity, and a content mastery quiz. The online courses are just the beginning as learners are supported with a variety of tools to help remind them of what they learned and help them put the learning into practice.

Discounted Services on Criminal Background Checks Praesidium has developed a comprehensive background check package that includes: a Social Security Number Trace and Alias Search, Multi-State Criminal Records Search, National Sex Offender Registry Search, and national and international security searches. This search is one of the most comprehensive searches in the industry and includes over 305 million criminal records from county, state, national, and international sources. The package is made available to our clients at a discounted rate and includes the following services:

- An initial consultation call
- A standard consent form to use with your applicants
- A comprehensive user's manual for the online background check system
- Upon request, Praesidium will help you interpret background check results and reports with criminal hits and provide guidance regarding adverse actions procedures

Safety Blog and Bulletins This blog serves as a way to keep employees and volunteers well informed about how to keep those in their care safe from abuse. Praesidium's blog allows their experts to interact in real time; answering questions, sharing what we are learning in the field, and commenting on relevant news items. Please visit website.praesidiuminc.com/child-abuse-prevention-blog. Additionally, email praesidium@praesidiuminc.com, with subject line "Add me to your mailing list" to join Praesidium's mailing list for quarterly bulletins that contain key content and popular posts from the blog.

Toll-free Confidential Abuse Helpline Praesidium's experts are just a phone call away to provide our clients with guidance on abuse prevention, managing risks, and responding to dangerous or potentially costly situations.

Abuse Prevention Services

For larger complex risks, more extensive services are also available as part of the coverage, including:

Policy Analysis Sound policies provide the foundation for a safe work environment. They guide employees and volunteers on what is and is not acceptable, they set organizational tolerance levels, and they can help protect organizations when facing litigation. Policies should address such ever-changing issues such as whether employees can communicate with clients via email, social networking sites, or after work, among other important topics. Praesidium reviews and provides detailed analysis report of our clients' policies as well as resources for any recommendations suggested, upon request.

On-site Management Systems Review Praesidium's Management Systems Review identifies potential gaps in our clients' risk management practices related to preventing the sexual abuse of children or vulnerable adults by an employee, volunteer, or another program participant. Praesidium analyzes existing policies; interviews representatives from program, human resources, risk management, legal, and training; and reviews past incidents, allegations, or litigation related to abuse. At the conclusion of this on-site review, Praesidium shares the findings with key leaders and recommends ways to address potential exposures.

American International Group, Inc. (AIG) is a leading international insurance organization serving customers in more than 130 countries. AIG companies serve commercial, institutional, and individual customers through one of the most extensive worldwide property-casualty networks of any insurer. In addition, AIG companies are leading providers of life insurance and retirement services in the United States. AIG common stock is listed on the New York Stock Exchange and the Tokyo Stock Exchange.

Additional information about AIG can be found at www.aig.com | YouTube: www.youtube.com/aig | Twitter: @AIG_LatestNews | LinkedIn: www.linkedin.com/company/aig

AIG is the marketing name for the worldwide property-casualty, life and retirement, and general insurance operations of American International Group, Inc. For additional information, please visit our website at www.aig.com. All products and services are written or provided by subsidiaries or affiliates of American International Group, Inc. Products or services may not be available in all countries, and coverage is subject to actual policy language. Non-insurance products and services may be provided by independent third parties. Certain property-casualty coverages may be provided by a surplus lines insurer. Surplus lines insurers do not generally participate in state guaranty funds, and insureds are therefore not protected by such funds.

The services described herein are intended for the express purpose of assisting AIG underwriting personnel in the underwriting of the subject insured's risk exposures, property and/or operations and to assist in loss control activities. No warranty, guarantee, or representation, either expressed or implied, is made as to the correctness or sufficiency of any such service. Services may not address each and every possible loss potential, violation of any laws, rules or regulations, or exception to good practices and procedures. AIG assumes no responsibility for the discovery and elimination of hazards which could possibly cause accidents or damage at any facility that is inspected. Reliance upon, or compliance with, any of the information, suggestions or recommendations contained in any of the services described herein in no way guarantees the fulfillment of any insured's obligations under its insurance policy or as may otherwise be required by any laws, rules or regulations.
