

CyberEdge® Risk Consulting Services

Additional Vendor Partner Tools and Services

Despite a company's best efforts to protect itself from a cyber attack through its own IT department, it may not be enough in today's rapidly changing cyber environment. CyberEdge clients are armed with a wide range of preventative tools, adding valuable layers to a company's line of defense.

In addition to our complimentary services, all CyberEdge clients have access to the following services at a preferred rate, some of which are available for a free demo. These services have been specifically selected based on our nearly 20 years of experience and how well they can help strengthen the cybersecurity maturity of an organization.

Quantification Workshop and Insurance Portfolio Stress Test, powered by AXIO, helps clients understand their cyber exposure in financial terms and subsequently, how a variety of representative cyber loss scenarios might be treated by the client's entire insurance portfolio.

BitSight Security Ratings, powered by BitSight Technologies, and **Vendor Security Ratings**, powered by SecurityScorecard, let companies measure and monitor their own network and those of their third-party vendors.

Dark Net Intelligence, powered by BlueVoyant, helps clients stay apprised of what the latest chatter is inside the dark net.

Office of the CISO, powered by Optiv, provides on-demand access to virtual, interim, and staffed CISO expertise as well as critical security advisory services.

Cybersecurity Maturity Assessment, powered by RSA, helps organizations assess their cybersecurity risk.

Security Awareness Training, powered by Wombat Security, provides phishing training and simulations for an insured's employees.
