

CyberEdge® Plus

Cyber-attack related bodily injury,
property damage, business interruption,
and product liability

If an organization suffers a cyber attack, there's more than data at stake. In our interconnected world, a cyber attack may cause property damage, loss of life, broad business interruption, or harm to customers.

AIG's proactive risk services, comprehensive insurance offering, and long-standing breach response and claims teams are at our clients' disposal to help manage the ever growing number of cyber-related exposures. These include:

- Complimentary, independent analysis of the entire property and casualty portfolio to understand, policy-by-policy, how each may respond to a cyber-predicated loss. Assistance with employee training, compliance, gathering threat intelligence, and incident response planning is also available at no extra cost.
- 24/7 assistance of our breach response team with nearly 20 years of experience handling cyber breaches to help find the immediate threat (such as a hacker inside a network) and start the restoration and recovery process for a business as soon as possible.
- Primary or excess/difference-in-conditions insurance coverage to provide financial and event management support if a cyber attack causes:
 - company property to be damaged
 - business to be interrupted
 - customers, or other third parties to be injured
 - third party damage to property

AIG is the marketing name for the worldwide property-casualty, life and retirement, and general insurance operations of American International Group, Inc. For additional information, please visit our website at www.aig.com. All products and services are written or provided by subsidiaries or affiliates of American International Group, Inc. Products or services may not be available in all countries, and coverage is subject to actual policy language. Non-insurance products and services may be provided by independent third parties. Certain property-casualty coverages may be provided by a surplus lines insurer. Surplus lines insurers do not generally participate in state guaranty funds, and insureds are therefore not protected by such funds.
