CyberEdge® Risk Consulting Services
End-to-End Cyber Risk Management Solutions

Despite a company’s best efforts to protect itself from a cyber attack through its own IT department, it may not be enough in today’s rapidly changing cyber environment. CyberEdge clients are armed with a wide range of preventative tools, adding valuable layers to a company’s line of defense.

Complimentary tools and services are included with each CyberEdge policy* to provide knowledge, training, security, and consultative solutions. Clients can also improve their level of protection and preparation by taking advantage of additional services at preferred rates from AIG’s cyber risk consultants and our expert partners.

Complimentary Tools and Services

**Employee eLearning – Awareness, training, and compliance**
Customizable, web-based training and compliance to help reduce the single largest risk to an organization: human error.

**Blacklist IP Blocking – Powered by global threat intelligence**
Helps prevent criminal activity on your network by blocking bad IP traffic – inbound or outbound.

**Domain Protection – Identify and block typo squatting domains**
Protects your organization by identifying and blocking knockoff domains used by criminals. Their social engineering attacks trick employees into clicking on malware.

**Infrastructure Vulnerability Scan – Identification of high risk infrastructure vulnerabilities**
Select parts of your internet-facing infrastructure to have experts examine and identify vulnerabilities that are open to potential exploits by cyber criminals.

**Legal Risk Consultation – Review and strengthen incident response capabilities**
Two hours with an expert on incident response planning, regulatory compliance, security awareness, or privacy training.

**Forensic Risk Consultation – Organizational preparedness for different threat scenarios**
One hour with a forensic expert on what an organization needs to think about and prepare for different threat scenarios.

Get Started Today
Contact us today to take advantage of these services and improve your organization’s protection against a cyber attack:

- Visit [www.aig.com/CyberRiskConsulting](http://www.aig.com/CyberRiskConsulting) and complete the contact form, or
- Email us at CyberRiskConsulting@aig.com

Public Relations Risk Consultation – Crisis communication plan best practices and preparation
One hour with an expert to prepare and plan for your organization to handle potential scenarios if one should occur.

CyberEdge Hotline – 24/7/365 cyber hotline
Our CyberEdge Claims Hotline is available 24/7/365 at 1-800-CYBR-345 (1-800-292-7345). Once a call is made to the hotline, the CyberEdge Claims Team will coordinate with the client to implement their response plan, engage any necessary vendors including breach counsel and forensics firms to identify immediate threats (such as a hacker inside a network), and start the restoration and recovery processes.

Insurance Portfolio Diagnostic – Cyber as a peril analysis against insurance portfolio
Experts review your entire property and casualty portfolio to determine how it is anticipated to respond to the spectrum of cyber predicated financial and tangible losses.

Cybersecurity Information Portal – Online access to cybersecurity information
24/7/365 access to current cybersecurity information.
Additional Benefits, Tools, and Services
In addition to the above complimentary services, all CyberEdge clients have access to the following services at a preferred rate, some of which are available for a free demo. These services have been specifically selected based on our nearly 20 years of experience and how well they can help strengthen the cybersecurity maturity of an organization.

AIG Risk Consulting Services
AIG’s team of cyber risk consultants brings over 50 years combined experience in IT security to help our clients stay ahead of their cyber risk. Our team works directly with insureds to provide detailed, technical expertise and consulting services through:

Cyber Defense Review, designed to take a look at an insured’s people, processes, and tools comprising their cybersecurity program and identify strengths and weaknesses.

Internet Facing System Examination, designed to help insureds identify risks and exposures in their public facing infrastructure from an attacker’s perspective.

Incident Simulation Workshop, designed to help clients ensure their incident response plan will respond efficiently and help them better maximize their CyberEdge benefits.

Executive Threat Brief, designed to help clients better understand the current security threat landscape specific to their industry and current methods attackers are using.

Cyber Engineering Study, designed to look at an insured’s people, processes, and tools that protect critical systems and industrial controls within their environment.

Preferred Vendor Partner Services
We have partnered with experts in cyber risk to bring our clients additional options to add to their line of defense. Available services include:

Dark Net Intelligence, powered by K2-Intelligence, helps clients stay apprised of what the latest chatter is inside the dark net.

Cybersecurity Maturity Assessment, powered by RSA, helps organizations assess their cybersecurity risk.

BitSight Security Ratings, powered by BitSight Technologies, and Vendor Security Ratings, powered by SecurityScorecard, let companies measure and monitor their own network and those of their third-party vendors.

Security Awareness Training, powered by Wombat Security, provides phishing training and simulations for an insured’s employees.

Quantification Workshop, powered by AXIO, provides clients with a holistic picture of their cyber exposure.

SecureDNS, powered by Risk Analytics, removes critical routes attackers may use to phish and trick users, deliver ransomware, infect systems, and exfiltrate stolen data.
