What’s Inside CyberEdge

Cybersecurity and privacy risks continue to evolve, while businesses holding confidential and business-critical data embrace digital technology more and more. CyberEdge helps organizations develop effective end-to-end security risk management programs—underpinned by AIG’s cyber insurance protection.

In the face of a cyber attack, our elite network of experts includes information security consultants, law firms, forensic investigators, and public relations firms to deliver immediate 24/7 client support — anytime, anywhere.

Here are just some of the ways we help you protect your business, your employees, your customers, and your property...
Add our expertise to yours to help defend your business:

**Loss Prevention**
CyberEdge helps to prevent an attack in the first place, with a host of services available to clients including: customizable training for employees, threat intelligence gathering and assessment, vulnerability scanning, IP blocking and domain protection, and vendor security analysis.

**First-Party Recovery**
Once a breach occurs, we help clients notify and support the recovery of affected customers, handle crisis communications, and determine exactly what happened. We also assist with the costs of managing and mitigating a cyber incident and compensate for lost profits and operating costs due to the breach.

**Third-Party Loss and Regulatory Costs**
We’ll cover third-party claims by outside parties such as suppliers or customers resulting from a cyber breach. Assistance is also provided in responding to any regulatory actions brought in connection to the breach, or for failure to disclose the breach.

**Extortion**
If an outsider attempts to extort an organization by threatening the availability of its computer network or the disclosure or destruction of its information, we can help. This includes paying for costs associated with ending the threat and investigating its cause.

**Online Media Exposure**
If content is erroneously distributed on an organization’s website, we protect the organization against any related copyright infringement, trademark infringement, defamation, and invasion of privacy claims.

**Emergency 24/7 Assistance**
If a cyber-attack or data breach is believed to be underway, we’ll get you technical support from an IBM specialist right away. Our experts are available 24-hours-a-day, every day of the year, to find the immediate threat (such as a hacker inside a network) and start the restoration and recovery process for a business as soon as possible.

**Coverage for Bodily Injury and Property Damage**
In addition to coverage for financial loss, clients can receive affirmative coverage for bodily injury and property damage resulting from a cybersecurity failure in a way that best fits their needs. Whether by enhancing an existing General Liability or Property policy or purchasing a dedicated modular cyber policy, clients can respond to the growing number of incidents and threats of cyber-attacks causing physical damage and harm to people.

These are just some of the ways that CyberEdge can help keep businesses stay ahead of the curve of cyber risk. For full details of coverage, terms and exclusions see the CyberEdge policy wording or ask your insurance broker.
WHY AIG

Our outstanding claims capabilities are an integral part of AIG’s long and successful track record of insuring businesses against cyber threats:

AIG has been providing stand-alone cyber insurance for nearly two decades.

More than 20 million people and 22,000 companies have trusted us to help respond to some of the world’s biggest data breaches.

AIG’s breach resolution team has helped thousands of businesses worldwide respond to attacks.

AIG partners help clients build cyber-secure cultures and deal with the human element of cyber risk.

Our investments in companies like K2 Intelligence help to deepen clients’ understanding and ability to combat cyber risk exposure.
American International Group, Inc. (AIG) is a leading global insurance organization. Founded in 1919, today we provide a wide range of property-casualty insurance, life insurance, retirement products, mortgage insurance and other financial services to customers in more than 100 countries and jurisdictions. Our diverse offerings include products and services that help businesses and individuals protect their assets, manage risks and provide for retirement security. AIG common stock is listed on the New York Stock Exchange and the Tokyo Stock Exchange.

Additional information about AIG can be found at www.aig.com and www.aig.com/strategyupdate | YouTube: www.youtube.com/aig | Twitter: @AIGinsurance | LinkedIn: www.linkedin.com/company/aig. These references with additional information about AIG have been provided as a convenience, and the information contained on such websites is not incorporated by reference into this press release.

AIG is the marketing name for the worldwide property-casualty, life and retirement, and general insurance operations of American International Group, Inc. For additional information, please visit our website at www.aig.com. All products and services are written or provided by subsidiaries or affiliates of American International Group, Inc. Products or services may not be available in all countries, and coverage is subject to actual policy language. Non-insurance products and services may be provided by independent third parties. Certain property-casualty coverages may be provided by a surplus lines insurer. Surplus lines insurers do not generally participate in state guaranty funds, and insureds are therefore not protected by such funds.
