LEXINGTON INSURANCE

An AIG company

Lexington Insurance Company
Healthcare Risk Management Client Services

Broker Information

The Lexington Insurance Healthcare Risk Management Client Services Team understands and shares your client's commitment to patient safety and risk management.

In today's world it is vital that healthcare organizations and facilities develop and maintain a robust risk management program that identifies, mitigates, and proactively addresses the many potential healthcare liability exposures. We don't want your clients to have to do this alone. We want to help and we are here for them.

To help your clients meet their specific risk management and patient safety goals, Lexington Insurance Healthcare Risk Management provides customized client services, resources, and tools as a complimentary feature of their Lexington policy. Depending upon your client's risk management needs and goals, Lexington's healthcare risk management resources and tools may include:

- Access to Lexington's Risk Management Consultation Helpline
- Consultation Services (Policy and procedure review, research assistance, templates, etc...)
- Risk Assessments of High Exposure Areas (ED, OB, Behavioral Health, Perioperative)
- Onsite and Live Remote Risk Management Education
- Onsite and Live Remote Crisis Prevention and Verbal De-escalation Training
- Quarterly Webinars
- Emerging Exposure Advisories and Alerts
- Vendor Resources and Tools (ECRI subscriptions, ASHRM resources, HC PRO Toolkits, and more....)
- National/Regional ASHRM Education Conference Scholarships
