

# Safety Tips for Property Owners to Protect Against Bed Bugs

Bed bug infestations are occurring in hotels, apartments, single-family homes, upscale commercial office buildings, school classrooms, laundromats, public transportation, and the list goes on and on. Sanitation has a tremendous impact on the ability to control or eliminate an infestation. Bed bugs live in cracks and crevices associated with bed frames, headboards, mattresses, and box springs. However, they also will migrate from the bed to live between or beneath floorboards and carpeting, under decorative moldings, in or under furniture, behind picture frames, inside wall voids, etc. This handout is for property owners to ensure they are familiar with key safety issues. If the presence of bed bugs is found or if there is evidence of bed bugs, a pest control operator should be contacted to do a thorough survey.

	Yes	No	N/A
Is there a written plan in effect to expeditiously deal with a suspected bed bug event?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is there an available pest control management firm with experience treating bed bug infestations?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is the discarding of beds or abandonment of rooms found to be infested with bed bugs prohibited because the bed bugs can spread to walls, ceilings, other rooms, etc.?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is the use of 'bug bombs' prohibited because they are less effective than other means of controlling or eliminating bed bugs?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
If a pest management professional confirms the presence of bed bugs, are the following items prepared for treatment:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are blankets, sheets, covers, pillows, bath towels, and drapes/curtains removed and placed in dissolvable bags for transport to a laundry?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are items from drawers and closets placed in plastic bags?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are shoes, pillows, plush toys, etc. placed in plastic bags for laundering or treatment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is there a maintenance procedure in place to repair any structural issues in rooms that may serve as bed bug harborages, such as loose wallpaper or cracks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is the housekeeping or cleaning staff educated to recognize early bed bug signs as they do their daily cleaning?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is the housekeeping cart equipped with a checklist for inspecting beds for bed bug evidence in daily cleaning?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
If laundering is provided, is the service performed weekly in hot water and dried in the hot cycle of the dryer to kill any bed bugs or eggs on the items?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Did you know that heat is deadly to all stages of bed bugs including the eggs?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- Is the water temperature of washing machines set so that bed bugs can be killed by exposing them to temperatures in excess of 115o F (46 o C) for at least five minutes?
- Are follow-up treatments and inspections performed over a 21-day timeframe to compensate for missed coverage and bugs hiding in deep recesses?
