Tax-Qualified Distributions	AGL will make all necessary calculations to ensure IRS Required Minimum Distributions (RMD) based on the contract may be made, unless the contract owner requests otherwise.

<b>Maximum Annuity Age</b>	When income must begin: <ul style="list-style-type: none"> <li>• Nonqualified annuities: By age 95, otherwise the contract must be surrendered.</li> <li>• Tax-qualified annuities: Generally by April 1 of the year after the annuitant reaches age 70½ unless RMD requirements are being satisfied elsewhere. Income can be taken by annuitization of the contract or by partial withdrawals. However, the contract must be annuitized or surrendered no later than age 95.</li> </ul>
<b>Ownership</b>	
	Single, joint; nonqualified, IRA, SEP IRA and Roth IRA
<b>Market Value Adjustment (MVA)</b>	
	<p>A market value adjustment applies during the initial rate term only.</p> <p>The MVA is an adjustment that can either increase or decrease the withdrawal amount depending on the current interest rate environment. When interest rates at the time of withdrawal are higher than the level at the time the contract is issued, the MVA will result in a decrease. If interest rates are down, the MVA will increase the withdrawal amount.</p> <p>Should an MVA decrease apply, the amount charged will not result in your receiving less than the minimum withdrawal value as defined in your contract or MVA endorsement. MVA does not apply to withdrawals representing penalty-free withdrawal amounts, RMDs, annuitization or death benefit. An external index referenced in your contract is used to measure rates.</p>
<b>Withdrawals</b>	
<b>Penalty-free Withdrawal Privilege</b>	After one year from the contract date, you may take multiple penalty-free withdrawals (without charges or MVA adjustments) each year not exceeding 15% of the previous anniversary contract value. Also, there is a 30-day window at the end of the initial interest rate guaranteed period during which no withdrawal charge or market value adjustment will be imposed on a full or partial withdrawal. After the 30-day window expires, withdrawal charges will resume for any withdrawal in excess of penalty-free amounts through the 10th year.
<b>Systematic Withdrawals</b>	<ol style="list-style-type: none"> <li>1) Systematic withdrawals are allowed at any time by making a written election<sup>2</sup></li> <li>2) \$100 minimum amount<sup>2</sup> monthly, quarterly, semiannually or annually</li> <li>3) Systematic withdrawals may be subject to withdrawal charges</li> </ol>
<b>Random Withdrawal</b>	\$250 minimum amount. AGL reserves the right to pay the entire withdrawal value and terminate the contract if a withdrawal reduces the contract value to less than \$2,000.
<b>Taxes, Tax Advantages &amp; Tax-Free Transfers</b>	
<b>Tax Deferral</b>	Federal income taxes are deferred until the year interest is withdrawn. <sup>3</sup> There is no tax deferral if the owner is a corporation. If the owner is a trust or other entity, please consult a tax advisor regarding the tax-deferred status. The return of principal may also be taxable on tax-qualified annuities, such as traditional IRAs.
<b>Tax-Advantaged Income</b>	Once the contract is annuitized, part of each annuity income payment is considered a tax-free return of principal (except tax-qualified annuities, such as traditional IRAs, where the principal may also be taxable).

<sup>2</sup> By company practice, which is subject to change.

<sup>3</sup> Unless your annuity is a Roth IRA, for federal income tax purposes, withdrawals are treated as earnings first, subject to ordinary income tax, and as a return of principal after earnings are exhausted.

## Taxes, Tax Advantages & Tax-Free Transfers (Cont'd)

<b>Pre-59½ Withdrawals</b>	Taxable withdrawals prior to age 59½ may be subject to a 10% federal early withdrawal tax penalty. The penalty may be waived for death, total disability (as defined by the IRS), or if the payment is made as part of a series of substantially equal payments for the life expectancy of the owner (except tax-qualified annuities where the entire amount withdrawn may be subject to a 10% federal early withdrawal tax penalty).
<b>Tax-Free Exchange</b>	May be used for exchanges from a life insurance or endowment contract or another annuity. <sup>4</sup> To maintain non-taxable status, the owner and annuitant must remain the same, and the owner cannot take receipt of the funds.
<b>Tax-Qualified Plans</b>	May be an initial tax-qualified contribution, or transfer or direct rollover of funds from IRAs or qualified retirement plans such as SEPs, Keoghs, 403(b)s or 401(k)s. <sup>4</sup>

We must receive proof within 90 days of the last day such extended care was received. Waiver does not apply if extended care began before the contract was issued.
<b>Terminal Illness</b>	Withdrawal charges and MVA (if applicable) will be waived for one full or partial withdrawal if the owner is diagnosed with a terminal illness that is expected to result in death within one year. Initial diagnosis must be after the contract date and written documentation by a qualified physician is required.
<b>Activities of Daily Living</b>	After the first contract year, withdrawal charges and MVA (if applicable) will be waived if the owner cannot perform two or more of the six defined activities of daily living (bathing, continence, dressing, eating, toileting and transferring) for at least 90 consecutive days. Annuities are long-term retirement saving vehicles.

Retirement plans and accounts such as 403(b)s, IRAs, 401(k)s, etc., can be tax deferred regardless of whether or not they are funded with an annuity. Investment in an annuity within a plan does not provide additional tax-deferred treatment of earnings. However, annuities do provide other features and benefits.
