American International Group, Inc. Cautionary Statement Regarding Forward-Looking Information

This Financial Supplement may include, and members of American International Group, Inc. (AIG) management may from time to time make and discuss, statements which, to the extent they are not statements of historical or present fact, may constitute “forward-looking statements” within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements are intended to provide management’s current expectations or plans for AIG’s future operating and financial performance, based on assumptions currently believed to be valid and accurate. Forward-looking statements are often preceded by, followed by or include words such as “will,” “believe,” “anticipate,” “expect,” “expectations,” “intend,” “plan,” “strategy,” “prospects,” “project,” “anticipate,” “should,” “guidance,” “outlook,” “confident,” “focused on achieving,” “view,” “target,” “goal,” “estimate” and other words of similar meaning in connection with a discussion of future operating or financial performance. These statements may include, among other things, projections, goals and assumptions that relate to future actions, prospective services or products, future performance or results of current and anticipated services or products, sales efforts, expense reduction efforts, the outcome of contingencies such as legal proceedings, anticipated organizational, business or regulatory changes, such as the separation of the Life and Retirement business from AIG, the effect of catastrophic events, both natural and man-made, and macroeconomic and/or geopolitical events, anticipated dispositions, monetization and/or acquisitions of businesses or assets, the successful integration of acquired businesses, management succession and retention plans, exposure to risk, trends in operations and financial results, and other statements that are not historical facts.

All forward-looking statements involve risks, uncertainties and other factors that may cause AIG’s actual results and financial condition to differ, possibly materially, from the results and financial condition expressed or implied in the forward-looking statements. Factors that could cause AIG’s actual results to differ, possibly materially, from those in specific projections, goals, assumptions and other forward-looking statements include, without limitation:

- the impact of adverse developments affecting economic conditions in the markets in which AIG and its businesses operate in the U.S. and globally, including adverse developments related to financial market conditions, macroeconomic trends, fluctuations in interest rates and foreign currency exchange rates, inflationary pressures, including social inflation, pressures on the commercial real estate market, an economic slowdown or recession, any potential U.S. federal government shutdown and geopolitical events or conflicts, including the conflict between Russia and Ukraine and the conflict in Israel and the surrounding areas;
- occurrence of catastrophic events, both natural and man-made, including the effects of climate change, geopolitical events and conflicts and civil unrest;
- disruptions in the availability or accessibility of AIG’s or a third party’s information technology systems, including hardware and software, infrastructure or networks, and the inability to safeguard the confidentiality and integrity of customer, employee or company data due to cyberattacks, data security breaches, or infrastructure vulnerabilities;
- AIG’s ability to successfully dispose of, monetize and/or acquire businesses or assets or successfully integrate acquired businesses, and the anticipated benefits thereof;
- AIG’s ability to realize expected strategic, financial, operational or other benefits from the separation of Corebridge Financial, Inc. (Corebridge) as well as AIG’s equity market exposure to Corebridge;
- AIG’s ability to effectively implement restructuring initiatives and potential cost-savings opportunities;
- AIG’s ability to effectively implement technological advancements, including the use of artificial intelligence (AI), and respond to competitors’ AI and other technology initiatives;
- the effectiveness of strategies to retain and recruit key personnel and to implement effective succession plans;
- concentrations in AIG’s investment portfolios;
- AIG’s reliance on third-party investment managers;
- changes in the valuation of AIG’s investments;
- AIG’s reliance on third parties to provide certain business and administrative services;
- availability of adequate reinsurance or access to reinsurance on acceptable terms;
- concentrations of AIG’s insurance, reinsurance and other risk exposures;
- nonperformance or defaults by counterparties, including Fortitude Reinsurance Company Ltd. (Fortitude Re);
- AIG’s ability to adequately assess risk and estimate related losses as well as the effectiveness of AIG’s enterprise risk management policies and procedures, including with respect to business continuity and disaster recovery plans;
- difficulty in marketing and distributing products through current and future distribution channels;
- actions by rating agencies with respect to AIG’s credit and financial strength ratings as well as those of its businesses and subsidiaries;
- changes to sources of or access to liquidity;
- changes in judgments concerning the recognition of deferred tax assets and the impairment of goodwill;
- changes in judgments or assumptions concerning insurance underwriting and insurance liabilities;
- changes in accounting principles and financial reporting requirements;
- the effects of sanctions, including those related to the conflict between Russia and Ukraine, and the failure to comply with those sanctions;
- the effects of changes in laws and regulations, including those relating to the regulation of insurance, in the U.S. and other countries in which AIG and its businesses operate;
- changes to tax laws in the U.S. and other countries in which AIG and its businesses operate;
- the outcome of significant legal, regulatory or governmental proceedings;
- AIG’s ability to effectively execute on sustainability targets and standards;
- AIG’s ability to address evolving stakeholder expectations and regulatory requirements with respect to environmental, social and governance matters;
- the impact of epidemics, pandemics and other public health crises and responses thereto; and
- such other factors discussed in Part I, Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations (MD&A) in AIG’s Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2024 (which will be filed with the Securities and Exchange Commission (SEC)), and Part I, Item 1A. Risk Factors and Part II, Item 7. MD&A in AIG’s Annual Report on Form 10-K for the year ended December 31 2023

Forward-looking statements speak only as of the date of this supplement. We are not under any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law. Additional information as to factors that may cause actual results to differ materially from those expressed or implied in any forward-looking statements is disclosed from time to time in our SEC filings.

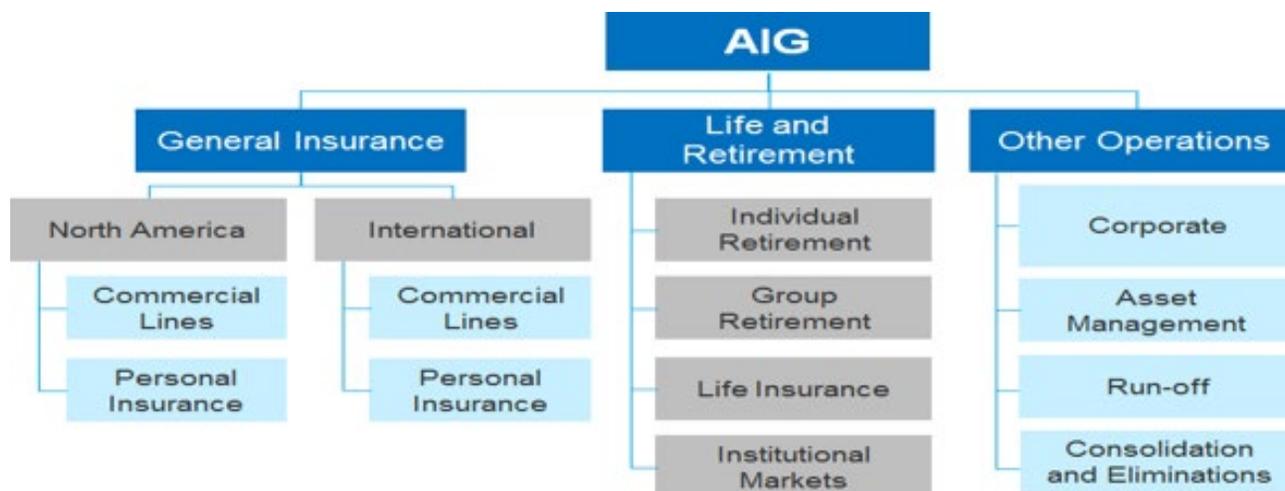

American International Group, Inc.

Overview

Segment Reporting

To align financial reporting with AIG's chief operating decision makers' view of AIG's businesses and how they allocate resources and assess performance, we present our segments as follows:

General Insurance

General Insurance is reported with the following operating segments:

- North America – consists of insurance businesses in the United States, Canada and Bermuda, and our global reinsurance business, AIG Re.
- International – consists of regional insurance businesses in Japan, the United Kingdom, Europe, Middle East and Africa (EMEA region), Asia Pacific, Latin America and Caribbean, and China. International also includes the results of Talbot Holdings, Ltd. as well as AIG's Global Specialty business.

On July 3, 2023, AIG closed the sale of Crop Risk Services, Inc. (CRS) to American Financial Group, Inc. (AFG) and in substance, AIG exited the crop business. For periods prior to the sale of CRS, the underwriting results are included in adjusted pre-tax income of General Insurance – North America Commercial Lines.

On November 1, 2023, AIG closed the sale of Validus Reinsurance, Ltd (Validus Re), including AlphaCat Managers Ltd. and Talbot Treaty reinsurance business to RenaissanceRe Holdings Ltd. (RenaissanceRe).

Life and Retirement

Life and Retirement is reported with the following operating segments:

- Individual Retirement – consists of fixed annuities, fixed index annuities and variable annuities.
- Group Retirement – consists of record-keeping, plan administrative and compliance services, financial planning and advisory solutions offered to employer defined contribution plan participants, along with proprietary and non-proprietary annuities, advisory and brokerage products offered outside of plan.
- Life Insurance – primary products in the U.S. include term life and universal life insurance. On October 31, 2023, Corebridge closed the sale of Laya Healthcare Limited (Laya) to AXA. On April 8, 2024, Corebridge closed the sale of AIG Life Limited (AIG Life) to Aviva plc.
- Institutional Markets – consists of stable value wrap products, structured settlement and pension risk transfer annuities, corporate- and bank-owned life insurance, high net worth products and guaranteed investment contracts (GICs).

Other Operations

Other Operations primarily consists of income from assets held by AIG (excluding its consolidated subsidiaries) (AIG Parent) and other corporate subsidiaries, deferred tax assets related to tax attributes, corporate expenses and intercompany eliminations, our institutional asset management business and results of our consolidated investment entities, General Insurance portfolios in run-off as well as the historical results of our legacy insurance lines ceded to Fortitude Re.

American International Group, Inc. Non-GAAP Financial Measures

Throughout this Financial Supplement, we present our financial condition and results of operations in the way we believe will be most meaningful and representative of our business results. Some of the measurements we use are “Non-GAAP financial measures” under SEC rules and regulations. GAAP is the acronym for generally accepted accounting principles in the United States. The non-GAAP financial measures we present may not be comparable to similarly-named measures reported by other companies. We use the following operating performance measures because we believe they enhance the understanding of the underlying profitability of continuing operations and trends of our business segments. We believe they also allow for more meaningful comparisons with our insurance competitors. When we use these measures, reconciliations to the most comparable GAAP measure are provided on a consolidated basis.

Adjusted Pre-tax Income (APTI) is derived by excluding the items set forth below from income from continuing operations before income tax. This definition is consistent across our segments. These items generally fall into one or more of the following broad categories: legacy matters having no relevance to our current businesses or operating performance; adjustments to enhance transparency to the underlying economics of transactions; and measures that we believe to be common to the industry. APTI is a GAAP measure for our segments. Excluded items include the following:

- changes in fair value of securities used to hedge guaranteed living benefits;
- changes in benefit reserves related to net realized gains and losses;
- net change in market risk benefits (MRBs);
- changes in the fair value of equity securities;
- net investment income on Fortitude Re funds withheld assets held by AIG in support of Fortitude Re’s reinsurance obligations to AIG post deconsolidation of Fortitude Re (Fortitude Re funds withheld assets);
- following deconsolidation of Fortitude Re, net realized gains and losses on Fortitude Re funds withheld assets;
- loss (gain) on extinguishment of debt;
- all net realized gains and losses except earned income (periodic settlements and changes in settlement accruals) on derivative instruments used for non-qualifying (economic) hedging or for asset replication. Earned income on such economic hedges is reclassified from net realized gains and losses to specific APTI line items based on the economic risk being hedged (e.g. net investment income and interest credited to policyholder account balances);
- income or loss from discontinued operations;
- net loss reserve discount benefit (charge);
- pension expense related to lump sum payments to former employees;
- net gain or loss on divestitures and other;
- non-operating litigation reserves and settlements;
- restructuring and other costs related to initiatives designed to reduce operating expenses, improve efficiency and simplify our organization;
- the portion of favorable or unfavorable prior year reserve development for which we have ceded the risk under retroactive reinsurance agreements and related changes in amortization of the deferred gain;
- integration and transaction costs associated with acquiring or divesting businesses;
- losses from the impairment of goodwill;
- non-recurring costs associated with the implementation of non-ordinary course legal or regulatory changes or changes to accounting principles; and
- income from elimination of the international reporting lag.

Adjusted After-tax Income attributable to AIG common shareholders (AATI) is derived by excluding the tax effected APTI adjustments described above, dividends on preferred stock and preferred stock redemption premiums, noncontrolling interest on net realized gains (losses), other non-operating expenses and the following tax items from net income attributable to AIG:

- deferred income tax valuation allowance releases and charges;
- changes in uncertain tax positions and other tax items related to legacy matters having no relevance to our current businesses or operating performance; and
- net tax charge related to the enactment of the Tax Cuts and Jobs Act (Tax Act).

American International Group, Inc. Non-GAAP Financial Measures (Cont.)

Book Value per Common Share, Excluding Accumulated Other Comprehensive Income (Loss) (AOCI) adjusted for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets and Deferred Tax Assets (DTA) (Adjusted Book Value per Common Share) is used to show the amount of our net worth on a per-common share basis after eliminating items that can fluctuate significantly from period to period, including changes in fair value (1) of AIG's available for sale securities portfolio (2) of market risk benefits attributable to our own credit risk and (3) due to discount rates used to measure traditional and limited payment long-duration insurance contracts, foreign currency translation adjustments and U.S. tax attribute deferred tax assets. This measure also eliminates the asymmetrical impact resulting from changes in fair value of our available for sale securities portfolio wherein there is largely no offsetting impact for certain related insurance liabilities. In addition, we adjust for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets since these fair value movements are economically transferred to Fortitude Re. We exclude deferred tax assets representing U.S. tax attributes related to net operating loss carryforwards and foreign tax credits as they have not yet been utilized. Amounts for interim periods are estimates based on projections of full-year attribute utilization. As net operating loss carryforwards and foreign tax credits are utilized, the portion of the DTA utilized is included in these book value per common share metrics. Adjusted Book Value per Common Share is derived by dividing Total AIG common shareholders' equity, excluding AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets, and DTA (**Adjusted Common Shareholders' Equity**), by total common shares outstanding. The reconciliation to book value per common share, the most comparable GAAP measure, is presented on page 63 herein.

Total debt and preferred stock to total capital ratio excluding AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets is used to show the AIG's debt leverage adjusted for AOCI and for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets. We believe this measure is useful to investors because it eliminates items that can fluctuate significantly from period to period, including changes in fair value (1) of AIG's available for sale securities portfolio, (2) of market risk benefits attributable to our own credit risk and (3) due to discount rates used to measure traditional and limited payment long-duration insurance contracts and foreign currency translation adjustments. This measure also eliminates the asymmetrical impact resulting from changes in fair value of our available for sale securities portfolio wherein there is largely no offsetting impact for certain related insurance liabilities. In addition, we adjust for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets since these fair value movements are economically transferred to Fortitude Re. The total debt and preferred stock to capital ratio is presented on page 12 herein.

Book Value per Common Share, Excluding Goodwill, Value of Business Acquired (VOBA), Value of Distribution Channel Acquired (VODA), Other Intangible Assets, AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets, and Deferred Tax Assets (DTA) (Adjusted Tangible Book Value per Common Share) is used to provide more accurate measure of the realizable value of shareholder on a per-common share basis. Adjusted Tangible Book Value per Common Share is derived by dividing Total AIG common shareholders' equity, excluding intangible assets, AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets, and DTA (**Adjusted Tangible Common Shareholders' Equity**), by total common shares outstanding. The reconciliation to book value per common share, the most comparable GAAP measure, is presented on page 63 herein.

AIG Return on Common Equity (ROCE) – Adjusted After-tax Income Excluding AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets and DTA (Adjusted return on common equity) is used to show the rate of return on common shareholders' equity. We believe this measure is useful to investors because it eliminates items that can fluctuate significantly from period to period, including changes in fair value (1) of AIG's available for sale securities portfolio, (2) of market risk benefits attributable to our own credit risk and (3) due to discount rates used to measure traditional and limited payment long-duration insurance contracts, foreign currency translation adjustments and U.S. tax attribute deferred tax assets. This measure also eliminates the asymmetrical impact resulting from changes in fair value of our available for sale securities portfolio wherein there is largely no offsetting impact for certain related insurance liabilities. In addition, we adjust for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets since these fair value movements are economically transferred to Fortitude Re. We exclude deferred tax assets representing U.S. tax attributes related to net operating loss carryforwards and foreign tax credits as they have not yet been utilized. Amounts for interim periods are estimates based on projections of full-year attribute utilization. As net operating loss carryforwards and foreign tax credits are utilized, the portion of the DTA utilized is included in Adjusted Return on Common Equity. Adjusted Return on Common Equity is derived by dividing actual or annualized adjusted after-tax income attributable to AIG common shareholders by average Adjusted Common Shareholders' Equity. The reconciliation to return on common equity, the most comparable GAAP measure, is presented on page 64 herein.

AIG Return on Common Equity – Adjusted After-tax Income, Excluding Goodwill, VOBA, VODA and Other Intangible assets, AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets, and DTA (Adjusted return on tangible common equity) is used to provide the rate of return on adjusted tangible common shareholder's equity, which is a more accurate measure of realizable shareholder value. We exclude Goodwill, VOBA, VODA and Other intangible assets from AIG common shareholders' equity to derive tangible common shareholders' equity and we further exclude AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets, and DTA for Adjusted Tangible Common Equity. Adjusted Return on Tangible Common Equity is derived by dividing actual or annualized adjusted after-tax income attributable to AIG common shareholders by average Adjusted Tangible Common Shareholders' Equity. The reconciliation to return on common equity, the most comparable GAAP measure, is presented on page 64 herein.

General Insurance and Life and Retirement Adjusted Segment Common Equity is based on segment equity adjusted for the attribution of debt and preferred stock (Segment Common Equity) and is consistent with AIG's Adjusted Common Shareholders' Equity definition. The reconciliations to Segment Common Equity are presented on page 67 herein.

General Insurance and Life and Retirement Return on Adjusted Segment Common Equity – Adjusted After-tax Income (Return on adjusted segment common equity) is used to show the rate of return on Adjusted Segment Common Equity. Return on Adjusted Segment Common Equity is derived by dividing actual or annualized Adjusted After-tax Income by Average Adjusted Segment Common Equity. The reconciliations to Return on Adjusted Segment Common Equity are presented on pages 14 and 28 herein.

Adjusted After-tax Income Attributable to General Insurance and Life and Retirement is derived by subtracting attributed interest expense, income tax expense and attributed dividends on preferred stock from APTI. Attributed debt and the related interest expense and dividends on preferred stock are calculated based on our internal allocation model. Tax expense or benefit is calculated based on an internal attribution methodology that considers among other things the taxing jurisdiction in which the segments conduct business, as well as the deductibility of expenses in those jurisdictions. The reconciliations from Adjusted pre-tax income to Adjusted after-tax income attributed to General Insurance and Life and Retirement are presented on page 67 herein.

American International Group, Inc. Non-GAAP Financial Measures (Cont.)

Adjusted Revenues exclude Net realized gains (losses), income from non-operating litigation settlements (included in Other income for GAAP purposes), changes in fair value of securities used to hedge guaranteed living benefits (included in Net investment income for GAAP purposes) and income from elimination of the international reporting lag. Adjusted revenues is a GAAP measure for our segments.

Premiums and deposits: includes direct and assumed amounts received and earned on traditional life insurance policies, group benefit policies and life-contingent payout annuities, as well as deposits received on universal life, investment-type annuity contracts, Federal Home Loan Bank (FHLB) funding agreements and mutual funds. We believe the measure of premiums and deposits is useful in understanding customer demand for our products, evolving product trends and our sales performance period over period.

Ratios: We, along with most property and casualty insurance companies, use the loss ratio, the expense ratio and the combined ratio as measures of underwriting performance. These ratios are relative measurements that describe, for every \$100 of net premiums earned, the amount of losses and loss adjustment expenses (which for General Insurance excludes net loss reserve discount), and the amount of other underwriting expenses that would be incurred. A combined ratio of less than 100 indicates underwriting income and a combined ratio of over 100 indicates an underwriting loss. Our ratios are calculated using the relevant segment information calculated under GAAP, and thus may not be comparable to similar ratios calculated for regulatory reporting purposes. The underwriting environment varies across countries and products, as does the degree of litigation activity, all of which affect such ratios. In addition, investment returns, local taxes, cost of capital, regulation, product type and competition can have an effect on pricing and consequently on profitability as reflected in underwriting income and associated ratios.

Accident year loss and Accident year combined ratios, as adjusted (Accident year loss ratio, ex-CATs and Accident year combined ratio, ex-CATs): both the accident year loss and accident year combined ratios, as adjusted, exclude catastrophe losses (CATs) and related reinstatement premiums, prior year development, net of premium adjustments, and the impact of reserve discounting. Natural catastrophe losses are generally weather or seismic events, in each case, having a net impact on AIG in excess of \$10 million and man-made catastrophe losses, such as terrorism and civil disorders that exceed the \$10 million threshold. We believe that as adjusted ratios are meaningful measures of our underwriting results on an ongoing basis as they exclude catastrophes and the impact of reserve discounting which are outside of management's control. We also exclude prior year development to provide transparency related to current accident year results.

Underwriting ratios are computed as follows:

- a. Loss ratio = Loss and loss adjustment expenses incurred ÷ Net premiums earned (NPE)
- b. Acquisition ratio = Total acquisition expenses ÷ NPE
- c. General operating expense ratio = General operating expenses ÷ NPE
- d. Expense ratio = Acquisition ratio + General operating expense ratio
- e. Combined ratio = Loss ratio + Expense ratio
- f. CATs and reinstatement premiums ratio = [Loss and loss adjustment expenses incurred – (CATs)] ÷ [NPE +/-(-) Reinstatement premiums related to catastrophes] – Loss ratio
- g. Accident year loss ratio, as adjusted (AYLR, ex-CATs) = [Loss and loss adjustment expenses incurred – CATs – PYD] ÷ [NPE +/-(-) Reinstatement premiums related to catastrophes +/-(-) Prior year premiums + Adjustment for ceded premium under reinsurance contracts related to prior accident years]
- h. Accident year combined ratio, as adjusted (AYCR, ex-CATs) = AYLR ex-CATs + Expense ratio
- i. Prior year development net of reinsurance and prior year premiums ratio = [Loss and loss adjustment expenses incurred – CATs – PYD] ÷ [NPE +/-(-) Reinstatement premiums related to catastrophes +/-(-) Prior year premiums] – Loss ratio – CATs and reinstatement premiums ratio.

Results from discontinued operations are excluded from all of these measures.

American International Group, Inc.
Consolidated Notes

- (1) AIG owns 52.7 percent of the outstanding common stock of Corebridge as of March 31, 2024. Corebridge is the holding company for AIG's Life and Retirement business. AIG continues to consolidate Corebridge in AIG's Condensed Consolidated Financial Statements. The portion of equity interest of Corebridge that AIG does not own is reflected as noncontrolling interest in AIG's Condensed Consolidated Financial Statements.
- (2) Financial debt and Hybrid debt are attributed to General Insurance, Life & Retirement and Other Operations.
- (3) On May 22, 2023, AIG announced a definitive agreement to sell Validus Re to RenaissanceRe. Validus notes and bonds payable were reclassified to Liabilities held for sale in our Consolidated Balance Sheet as of September 30, 2023. The transaction closed on November 1, 2023, for \$2.7 billion in cash and \$290 million in RenaissanceRe common stock. In the three months ended September 30, 2023, we redeemed \$199 million aggregate principal amount of Validus Holdings 8.875% Senior Notes due 2040 for a redemption price of 143.968 percent of the principal amount, plus accrued and unpaid interest, which totaled \$289 million.
- (4) Aggregate repurchase of common stock and average price paid per share of common stock excludes excise tax of \$14 million due to the Inflation Reduction Act of 2022 for the three months ended March 31, 2024.
- (5) Represents investment income on hedge funds, private equity funds and real estate investments. Hedge funds for which we elected the fair value option are recorded as of the balance sheet date. Private equity funds are generally reported on a one-quarter lag. We use a 7.5% expected rate of return for the better (worse) than expected private equity funds and real estate investments, and a 6% expected rate of return for the better (worse) than expected hedge funds.
- (6) Represents the impact of fair value changes included in APTI on the Fixed Maturity Securities – Other accounted under the fair value option, rather than their impact on the income from continuing operations before tax expense. We use a 4% expected rate of return to calculate the better (worse) than expected fair value changes on the Fixed Maturity Securities – Other line item for all periods presented herein.
- (7) Prior year premiums include additional or return premiums recorded as a result of changes in estimate of exposure and/or loss experience from prior years as well as reinstatement premiums related to prior year losses.
- (8) Noncontrolling interest includes the portion of equity interest of Corebridge that AIG does not own.
- (9) Represents AIG obligation to Fortitude Re for funds withheld assets supporting the reinsurance transaction. See a breakdown of funds withheld assets on page 68 and a breakdown of funds withheld investments by segment on page 49.
- (10) In the three months ended March 31, 2024, AIG repaid \$459 million aggregate principal amount of AIG 4.125% Notes due February 15, 2004. In the three months ended December 31, 2023, AIG repurchased, through cash tender offers, approximately \$1.6 billion aggregate principal amount of certain notes and debentures issued by AIG for an aggregate purchase price of approximately \$1.5 billion. In the three months ended June 30, 2023, we repaid approximately \$388 million of 5.00% Notes due 2023. In March 2023, we issued \$750 million aggregate principal amount of 5.125% Notes Due 2033.
- (11) The Delayed Draw Term Loan Agreement (DDTL) facility represents the \$250 million Corebridge borrowed under the \$1.5 billion Delayed Draw Term Loan Agreement.
- (12) On March 15, 2024, AIG redeemed all 20,000 outstanding shares of its Series A Preferred Stock and all 20,000,000 of the corresponding Depositary Shares, each representing a 1/1,000th interest in a share of Series A Preferred Stock, for a redemption price of \$25,000 per share (equivalent to \$25.00 per Depositary Share) for an aggregate redemption price of \$500 million, paid in cash.

Favorable prior year development for the three months ended March 31, 2024 was driven by favorable Adverse Development Cover amortization. Favorable prior year development for the three months ended December 31, 2023 was largely driven by favorable Adverse Development Cover amortization along with favorable development on prior year catastrophes, US Property and other short tail International specialty business. Favorable prior year development for the three months ended September 30, 2023 was largely driven by favorable Adverse Development Cover amortization along with favorable development on U.S. Workers Compensation, International Financial Lines in all regions except UK, which was adverse, and Japan Personal Insurance, partially offset by unfavorable development on U.K./Europe Casualty. Favorable prior year development for the three months ended June 30, 2023 was driven by favorable Adverse Development Cover amortization along with favorable development on our loss sensitive U.S. Workers Compensation business, U.S Property and Special Risks, and U.S. Casualty, partially offset by unfavorable development on European Casualty. Favorable prior year development for the three months ended March 31, 2023 was driven by favorable Adverse Development Cover amortization, along with favorable development on North America Workers Compensation and International Commercial Lines, partially offset by unfavorable development on prior year catastrophes, notably the 2022 accident year predominately related to a late occurring fourth quarter event.

American International Group, Inc.
General Insurance - Notes

- (1) Consistent with our definition of APTI, excludes net loss reserve discount and the portion of favorable or unfavorable prior year reserve development for which we have ceded the risk under retroactive reinsurance agreements and related changes in amortization of the deferred gain.
- (2) Computed using current exchange rate for the corresponding periods in the prior year. With prior year period adjusted for the sale of CRS and the sale of Validus Re, increase in U.S. dollars is 0%, increase in original currency is 0.4%.
- (3) Prior year premiums include additional or return premiums recorded as a result of changes in estimate of exposure and/or loss experience from prior years as well as reinstatement premiums related to prior year losses.
- (4) On July 3, 2023, AIG closed the sale of Crop Risk Services, Inc. (CRS) to American Financial Group, Inc. (AFG) and in substance, AIG exited the crop business. For periods prior to the sale of CRS, the underwriting results are included in adjusted pre-tax income of General Insurance – North America Commercial Lines.

	Quarterly

Combined ratio, comparable basis	84.4 %	88.0 %	87.5 %	88.9 %

American International Group, Inc.
General Insurance - Adverse Development Cover

On January 20, 2017, we entered into an adverse development reinsurance agreement with NICO under which we transferred to NICO 80 percent of the reserve risk on substantially all of our U.S. Commercial long-tail exposures for accident years 2015 and prior.

The table below shows the calculation of the gain on the NICO adverse development reinsurance agreement showing the effect of discounting of loss reserves and amortization of the deferred gain. The deferred gain is amortized over the settlement period of the reinsured losses.

(in millions)	March 31, 2024	December 31, 2023	September 30, 2023	June 30, 2023	March 31, 2023	1Q24 Change

American International Group, Inc.
Life and Retirement – Individual and Group Retirement Variable Annuity Guaranteed Benefits (11)

(in millions)

	Quarterly				
	1Q24	4Q23	3Q23	2Q23	1Q23
Account value by benefit type ^(a)					
Guaranteed Minimum Death Benefits (GMDB) only ^(b)	\$ 67,253	\$ 65,705	\$ 63,121	\$ 66,180	\$ 65,366
Guaranteed Minimum Income Benefits (GMIB) ^(c)	2,022	1,915	1,798	1,905	1,854
Guaranteed Minimum Withdrawal Benefits (GMWB) ^(d)	44,206	42,872	40,441	42,799	42,174

(a) Excludes assumed reinsurance business.

(b) A guaranteed minimum death benefit is an amount paid from a variable annuity upon the death of the owner. This benefit protects beneficiaries from market volatility and may be different than the account value. This benefit may be subject to a maximum amount based on age of owner or dollar amount. "Guaranteed Minimum Death Benefits only" signifies that no other guarantees are present in the contract. Contracts with a guaranteed living benefit also have a guaranteed minimum death benefit, but a policyholder can generally only receive payout from one guaranteed feature, i.e. the features are generally mutually exclusive. GMDBs exclude contracts with the benefit equal to the current account value.

(c) A guaranteed minimum income benefit guarantees a minimum level of periodic income payments upon annuitization.

(d) A guaranteed minimum withdrawal benefit creates a guaranteed income stream which, within certain parameters, may continue for the life of the annuitant even if the entire contract value has been reduced to zero. The fair value of GMWB market risk benefit is based on actuarial and capital market assumptions related to projected cash flows of rider fees and claims over the expected lives of the contracts.

(a) Future policy benefits include liabilities for future policy benefits and deferred profit liabilities.

(b) Represents liability for future policy benefits only.

(c) Comprises the notional value of stable value wrap contracts, excluding the portion included in Total insurance reserves.

See accompanying notes on page 40 and reconciliations of Non-GAAP financial measures beginning on page 62.

American International Group, Inc.
Life and Retirement Notes

- (1) See discussion of Corebridge stock ownership in Consolidated Note 1 on page 13.
- (2) Net investment income (loss) - base portfolio includes interest, dividends, and foreclosed real estate income, net of investment expenses and non-qualifying (economic) hedges.
- (3) Net investment income (loss) - other yield enhancements includes call and tender income, commercial mortgage loan prepayment fee, changes in market value of investments accounted for under the fair value option, interest received on defaulted investments (other than foreclosed real estate) and other miscellaneous investment income, including income of certain partnership entities that are required to be consolidated.
- (4) On October 31, 2023, Corebridge closed the sale of Laya to AXA. On April 8, 2024, Corebridge closed the sale of AIG Life to Aviva plc. AIG Life assets and liabilities were segregated and reported to Assets held for sale and Liabilities held for sale in our Consolidated Balance Sheet, respectively, as of September 30, 2023, December 31, 2023 and March 31, 2024.
- (5) Life and Retirement Adjusted pre-tax income in 3Q23 included the net effect of adjustments to reflect the annual review and update of certain actuarial assumptions. The assumption update impacts were primarily driven by updates to the portfolio yield assumption, refinements to the modeling for universal life with secondary guarantees and similar features, and mortality assumption updates, partially offset by updated premium assumptions, and other refinements on Life products. Consolidated pre-tax income also included adjustments to the valuation of annuity GMWB and GMDB features that are accounted for as market risk benefits, as well as index life and annuities products accounted for as embedded derivatives, primarily due to policyholder behavior, economic assumptions, and the relationship between projected equity growth and interest rates. Changes in the fair value of such embedded derivatives and market risk benefits are recorded in net realized gains (losses) and are excluded from APTI. In the aggregate, the net effect of adjustments to reflect the review and update of actuarial assumptions for Life and Retirement products increased (decreased) APTI and pre-tax income as follows:

<i>(in millions)</i>	Individual Retirement - Variable and Fixed Index Annuities	Individual Retirement - Fixed Annuities	Group Retirement	Life Insurance	Institutional Markets	Total Life and Retirement

Net realized gains (losses)	(6)	(2)	1	—	—	(7)
Change in the fair value of market risk benefits, net	(7)	1	13	—	—	7
Increase (decrease) to pre-tax income (loss)	\$ (13)	\$ —	\$ 14	\$ 19	\$ 2	\$ 22

- (6) Includes incremental effect on base yield of alternative investments. Quarterly results are annualized.
- (7) Includes incremental effect on base yield of other yield enhancements. Quarterly results are annualized.
- (8) Includes returns from base portfolio including accretion and impacts from holding cash and short-term investments. Quarterly results are annualized.
- (9) Annuity surrender rates represent actual or annualized surrenders and other withdrawals as a percentage of average annuity reserves and Group Retirement mutual fund assets under administration.
- (10) Assets under administration also enrolled in advisory services and mutual funds or annuities sold through VALIC Financial Advisors and reported in another AIG business unit segment.
- (11) Life and Retirement uses reinsurance, product design and hedging to mitigate risks related to guaranteed benefits in annuity contracts.
- (12) Life Insurance - Other income is primarily related to Laya commission and profit sharing revenues received from insurers for distribution of their products.
- (13) Life Insurance sales are shown on a continuous payment premium equivalent (CPPE) basis. Life insurance sales include periodic premiums from new business expected to be collected over a one-year period and 10 percent of unscheduled and single premiums from new and existing policyholders.
- (14) Life insurance lapse rates are reported on a 90-day lag basis to include grace period processing.

American International Group, Inc.
Other Operations Notes

- (1) General operating expenses include approximately \$20 million per quarter of expenses associated with our handling of claims on behalf of Fortitude Re; AIG is compensated fully by Fortitude Re for these claims handling services.
- (2) Consolidation and eliminations - consolidated investment entities primarily represents the elimination of intercompany net investment income recorded by General Insurance and Life and Retirement subsidiaries for their investments in consolidated investment entities within Asset Management reported in Other Operations.

Investments Portfolio Results Notes

- (1) Annualized Yield is calculated using quarterly annualized investment income divided by the average quarterly asset amortized cost for the interim periods. For hedge fund investments, annualized yield calculations are based on the average ending carrying value with adjustments for hedge fund redemptions that occurred at the beginning of the quarter. For purposes of calculating yield/total returns, average amortized cost was adjusted to exclude Fortitude Re withheld assets, consistent with the exclusion of net investment income on Fortitude Re funds withheld assets post deconsolidation of Fortitude Re. At June 30, 2023, Validus Re Fixed Maturity Securities - AFS, at fair value were reclassified to Assets held for sale. The Annualized yield for the three months ended December 31, September 30, June 30 and March 31, 2023 was calculated excluding Validus Re investment income of \$11 million, \$35 million, \$44 million and \$31 million, respectively. The Amortized costs for Validus Re Fixed Maturity Securities were excluded from the Annualized Yield calculation for the three months ended March 31, 2023 for \$4,816 million.
- (2) As of March 31, 2024, our Fixed Maturity Securities - AFS portfolio was approximately 77% fixed rate and 23% variable rate.
- (3) Fixed Maturity Securities - Other are securities for which we elected the fair value option. For Fixed Maturity Securities - Other changes in the fair value of these securities are reported through investment income, which can result in significant fluctuation in the total return.
- (4) Excludes the carrying value of securities used to hedge guaranteed living benefits.
- (5) As of March 31, 2024, our Fixed Maturity Securities - Other portfolio was approximately 72% fixed rate and 28% variable rate.
- (6) Other Invested Assets - Hedge Funds/Private Equity includes investments accounted for under the equity method of accounting, where changes in our share of the net asset values are recorded through investment income or investments where we have elected the fair value option, where changes in the fair value are reported through investment income.
- (7) Other Invested Assets - All Other includes long term time deposits, private common stock and affordable housing partnerships. Due to the mix of investments included within this line item and their varied performance, annualized yield is not meaningful and therefore is not presented.
- (8) Consistent with our definition of APTI, we exclude equity securities from our investments and changes in the fair value of equity securities from gross and net investment income-APTI basis. The following table provides information related to equity securities for periods presented (on a pre-tax basis):

(in millions)

	Quarterly				
	1Q24	4Q23	3Q23	2Q23	1Q23
Equity Securities at fair value					
Total return	51.93 %	(25.74)%	27.23 %	27.50 %	34.99 %
Investment income (loss)	\$ 99	\$ (40)	\$ 40	\$ 43	\$ 51
Ending carrying value	797	728	515	660	591

- (9) Fixed Maturity Securities - AFS and mortgage other loans receivable investment yield excludes commercial mortgage loan prepayment fee and call and tender income and other. Annualized Yield is calculated using quarterly annualized investment income divided by the average quarterly asset amortized cost for the interim periods. Additionally, see Note 1.

American International Group, Inc. Credit Ratings for Fixed Maturities

Credit Ratings

At March 31, 2024, approximately 89% of our fixed maturity securities were held by our domestic entities. Approximately 93% of these securities were rated investment grade by one or more of the principal rating agencies.

Moody's Investors Service Inc. (Moody's), Standard & Poor's Financial Services LLC, a subsidiary of S&P Global Inc. (S&P), or similar foreign rating services rate a significant portion of our foreign entities' fixed maturity securities portfolio. Rating services are not available for some foreign-issued securities. We closely monitor the credit quality of the foreign portfolio's non-rated fixed maturity securities. At March 31, 2024, approximately 93% of such investments were either rated investment grade or, on the basis of our internal analysis, were equivalent from a credit standpoint to securities rated investment grade. Approximately 26% of the foreign entities' fixed maturity securities portfolio is comprised of sovereign fixed maturity securities supporting policy liabilities in the country of issuance.

Composite AIG Credit Ratings

With respect to our fixed maturity securities, the credit ratings in the table below and in subsequent tables reflect: (i) a composite of the ratings of the three major rating agencies, or when agency ratings are not available, the NAIC Designation assigned by the NAIC SVO (99% of total fixed maturity securities) or (ii) our internal ratings when these investments have not been rated by any of the major rating agencies or the NAIC. The "Non-rated" category in those tables consists of fixed maturity securities that have not been rated by any of the major rating agencies, the NAIC or us.

NAIC Designations of Fixed Maturity Securities

The Securities Valuation Office (SVO) of the National Association of Insurance Commissioners (NAIC) evaluates the investments of U.S. insurers for statutory reporting purposes and assigns fixed maturity securities to one of six categories called 'NAIC Designations.' In general, NAIC Designations of '1' highest quality, or '2' high quality, include fixed maturity securities considered investment grade, while NAIC Designations of '3' through '6' generally include fixed maturity securities referred to as below investment grade. The NAIC has adopted revised rating methodologies for certain structured securities, including non-agency RMBS and CMBS, which are intended to enable a more precise assessment of the value of such structured securities and increase the accuracy in assessing expected losses to better determine the appropriate capital requirement for such structured securities. These methodologies result in an improved NAIC Designation for such securities compared to the rating typically assigned by the three major rating agencies. For fixed maturity securities where no NAIC Designation is assigned or able to be calculated using third-party data, the NAIC Designation category reflects an internal rating.

The NAIC Designations presented do not reflect the added granularity to the designation categories adopted by the NAIC in 2020, which further subdivide each category of fixed maturity securities by appending letter modifiers to the numerical designations.

(a) Includes realized gains and losses on certain derivative instruments used for non-qualifying (economic) hedging.

(b) Includes all net realized gains and losses except earned income (periodic settlements and changes in settlement accruals) on derivative instruments used for non-qualifying (economic) hedging or for asset replication and net realized gains and losses on Fortitude Re funds withheld assets.

(c) Beginning with the quarter ended December 31, 2022, the foreign property and casualty subsidiaries report on a calendar year ending December 31. We determined that the effect of not retroactively applying the elimination of the one month lag was immaterial to our Consolidated Financial Statements for the current and prior periods. Therefore, we reported the cumulative effect of the change in accounting principle within the Consolidated Statements of Income (Loss) for the year ended December 31, 2022 and did not retrospectively apply the effects of this change to prior periods.

Fortitude Re Supplementary Data

As of March 31, 2024, approximately \$26.9 billion of reserves from AIG's Life and Retirement Run-Off Lines and approximately \$2.9 billion of reserves from AIG's General Insurance Run-Off Lines, related to business written by multiple wholly-owned AIG subsidiaries, had been ceded to Fortitude Re under reinsurance transactions. Below lists selected Balance Sheet data (in millions) from our life insurance and general insurance subsidiaries related to the business ceded to Fortitude:

	March 31, 2024	December 31, 2023	September 30, 2023	June 30, 2023	March 31, 2023
Funds withheld assets	\$ 28,930	\$ 29,575	\$ 27,825	\$ 29,680	\$ 30,408
Reinsurance assets - Fortitude Re	29,732	30,612	28,895	30,541	31,149
Fortitude Re funds withheld payable	28,789	29,484	27,691	29,588	30,368
General Insurance run-off reserves*	2,878	3,027	2,970	3,058	3,150
Life and Retirement run-off reserves*	26,854	27,585	25,925	27,483	27,999

* Includes unearned premiums ceded to Fortitude Re as a result of the Majority Interest Fortitude Sale.

There is a diverse pool of assets supporting the funds withheld arrangements with Fortitude Re. The following summarizes the composition of the pool of assets as of March 31, 2024:

	March 31, 2024		Corresponding Accounting Policy
	Carrying Value	Fair Value	
Fixed maturity securities - available for sale ^(a)	\$ 16,726	\$ 16,726	Fair value through other comprehensive income
Fixed maturity securities - fair value option	5,035	5,035	Fair value through net investment income
Commercial mortgage loans	3,882	3,614	Amortized cost
Real estate investments	175	302	Amortized cost
Private equity funds / hedge funds	1,920	1,920	Fair value through net investment income
Policy loans	325	325	Amortized cost
Short-term investments	178	178	Fair value through net investment income
Funds withheld investment assets	28,241	28,100	
Derivative assets, net ^(b)	14	14	Fair value through net realized gains (losses)
Other ^(c)	675	675	Amortized cost
Total	\$ 28,930	\$ 28,789	

(a) The change in the net unrealized gains (losses) on available for sale securities related to the Fortitude Re funds withheld assets was \$(200) million (\$(100) million after-tax) for the three months ended March 31, 2024.

(b) The derivative assets and liabilities have been presented net of cash collateral. The derivative assets and liabilities supporting the Fortitude Re funds withheld arrangements had a fair market value of \$17 million and \$27 million, respectively, as of March 31, 2024. These derivative assets and liabilities are fully collateralized either by cash or securities.

(c) Primarily comprised of Cash and Accrued investment income.

Net realized gains (losses) - Fortitude Re funds withheld assets	(179)	101	(227)	(138)	(31)
Net realized gains (losses) - Fortitude Re embedded derivative	13	(2,159)	1,137	180	(1,165)
Net realized gains (losses) on Fortitude Re funds withheld assets	(166)	(2,058)	910	42	(1,196)
Income (loss) from continuing operations before income tax expense (benefit)	203	(1,515)	1,174	333	(750)
Income tax expense (benefit) ^(a)	43	(318)	247	70	(158)
Net income (loss)	160	(1,197)	927	263	(592)
Change in unrealized appreciation (depreciation) of all other investments ^(a)	(128)	1,165	(882)	(259)	556
Comprehensive income (loss) ^(b)	\$ 32	\$ (32)	\$ 45	\$ 4	\$ (36)

(a) The income tax expense (benefit) and the tax impact in accumulated other comprehensive income was computed using the U.S. statutory tax rate of 21 percent.

(b) Various assets supporting the Fortitude Re funds withheld arrangements are reported at amortized cost, and as such, changes in the fair value of these assets are not reflected in the financial statements. However, changes in the fair value of these assets are included in the embedded derivative in the Fortitude Re funds withheld arrangements and the appreciation of these assets is the primary driver of the comprehensive income (loss) reflected above.

* On October 31, 2023, Corebridge closed the sale of Laya to AXA. On April 8, 2024, Corebridge closed the sale of AIG Life to Aviva plc. AIG Life assets and liabilities were segregated and reported to Assets held for sale and Liabilities held for sale in our Consolidated Balance Sheet, respectively, as of September 30, 2023, December 31, 2023 and March 31, 2024.

American International Group, Inc. (NYSE: AIG) is a leading global insurance organization. AIG provides insurance solutions that help businesses and individuals in approximately 190 countries and jurisdictions protect their assets and manage risks through AIG operations and network partners.

AIG is the marketing name for the worldwide operations of American International Group, Inc. All products and services are written or provided by subsidiaries or affiliates of American International Group, Inc. Products or services may not be available in all countries and jurisdictions, and coverage is subject to underwriting requirements and actual policy language. Non-insurance products and services may be provided by independent third parties. Certain property casualty coverages may be provided by a surplus lines insurer. Surplus lines insurers do not generally participate in state guaranty funds, and insureds are therefore not protected by such funds.
