Emergency  
Procedures

...for airlines,  
general aviation  
and airports  
across the globe.

Client Risk Solutions (CRS) staff trained in aviation risk consulting can perform Safety Management Systems reviews to identify the efficacy of a client's safety policies and procedures, safety risk management, safety assurance and safety promotion. In addition, we can review a client's Risk Register and evaluate the effectiveness and relevance of their incident/accident reporting and existing risk control measures. We can also provide this service via desk-top analysis. Our deep understanding of the aerospace industry allows us to be a valuable strategic partner in addressing our clients' risk management needs.

## Wide-ranging capabilities that reduce a client's total cost of risk

### A strategic partner

For more than 70 years, AIG has provided innovative aerospace insurance solutions for nearly every type of industry using aircraft, from agriculture to space. Our aviation professionals will work with you to customize coverage options that can help minimize risks and maximize safety – to help keep your operations aloft.

### Aviation risk management expertise

Our loss control professionals work with many airlines, airports, corporate flight departments, maintenance, repair, overhaul (MRO) companies and fixed base operators. We collaborate with clients throughout the world, reducing their losses, enhancing their risk management controls and mitigating employee injury costs by reducing lost time and medical expenses.

### Terrorism and Active Shooters

CRS Risk Consultants can also provide consultative service for Terrorism Risk Management and Active Shooters.

### Tailored loss control services worldwide

Our team is skilled in reviewing **Airport Operations Management** including:

- On-site terminal reviews and local air traffic procedures along with navigational aids maintenance.
- Maintenance, repair & overhaul practices/policies including stores management, parts quarantine and tool control processes.
- Airside ramp operations with specific emphasis on efficient turnarounds and significant reduction in 3rd party aircraft damage.
- Passenger screening & transportation security including physical airport perimeter security measures.
- Aircraft refueling procedures to ensure safe uncontaminated fuel is uploaded.
- Emergency response procedures reviewed to ensure incident control is well managed along with business continuity and Environmental Health and Safety (EH&S) hazards and controls including adequacy and frequency of training.

### Other services

#### RiskTool Advantage®

Access to an extensive library of videos and associated tests via an on-line learning management system, often used for regulatory compliance.

#### Safety Concierge Service

Connects AIG clients with a vast network of industry experts quickly via a website or toll-free number providing answers to safety related questions. Services available at no additional cost include: baseline risk assessments, risk control program development, safety consultation & guidance, and web-based training tools and materials.

AIG is the marketing name for the worldwide property-casualty, life and retirement, and general insurance operations of American International Group, Inc. For additional information, please visit our website at [www.aig.com](http://www.aig.com). All products and services are written or provided by subsidiaries or affiliates of American International Group, Inc. Products or services may not be available in all countries, and coverage is subject to actual policy language. Non-insurance products and services may be provided by independent third parties. Certain property-casualty coverages may be provided by a surplus lines insurer. Surplus lines insurers do not generally participate in state guaranty funds, and insureds are therefore not protected by such funds.
